PROFESSIONAL SUMMARY

Frontend Developer with nearly 2 years of production experience building responsive React applications, including government and enterprise platforms in real-world use. Strong in JavaScript (ES6+), React.js, and Tailwind CSS, with hands-on experience in REST APIs, state management (Redux Toolkit, Context API), and component-based architecture. Comfortable integrating AI-assisted workflows (Claude Pro) into day-to-day development for code review, debugging, and rapid prototyping. Focused on clean, reusable code and shipping fast, maintainable interfaces.
